PERSONAL OBJECTIVE

Computer Science graduate with Google certifications and a strong interest in software development and problem-solving. A quick learner with excellent teamwork skills, adaptability, and a positive attitude. Passionate about coding, continuous learning, and contributing effectively to organizational success through dedication and technical expertise

TECHNICAL SKILLS

- **Programming Languages:** Python, Java, C, C++, JavaScript
- **Web Development:** HTML, CSS, React, Node.js, ASP.NET
- **Database Management:** MySQL, MongoDB, SQL Server
- **Operating Systems:** Windows, Linux

SOFT SKILLS

- Problem Solving
- Logical Thinking
- Team Collaboration
- Communication Skills
- Time Management
- Adaptability

EDUCATION

BACHELOR OF COMPUTER SCIENCE

Patrician college of arts and science ,
Chennai
CGPA : 8.5/10

HIGHER SECONDARY (CLASS XII)

Bosco Academy Mat Hr Sec School ,
Chennai
Percentage - 74%

LANGUAGES

- ENGLISH
- TAMIL

INTERNSHIP

May 2025 – Oct 2025

8QUEENSSOFTWARE TECHNOLOGIES/ SOFTWARE TESTING INTERN

QA TESTER

- Performed functional and usability testing on web-based applications to ensure quality and performance.
- Designed and executed test cases, identifying defects and improving system reliability.
- Collaborated with developers to resolve issues and verify fixes.
- Acquired data from primary and secondary sources and maintained database records to ensure ongoing data accuracy and system integrity.

PROJECTS

SPAM DETECTION WEBSITE [\[LINK\]](#) [\[GITHUB\]](#)

TOOLS USED : Python · Machine Learning · ETL · REST APIs · Data Visualization · Docker
Dec 2025 – Apr 2026

- Performed functional and usability testing on web-based applications to ensure quality and performance.
- Designed and executed test cases, identifying defects and improving system reliability.
- Collaborated with developers to resolve issues and verify fixes.
- Acquired data from primary and secondary sources and maintained database records to ensure ongoing data accuracy and system integrity.

AI TOOL BOX [\[LINK\]](#)

TOOLS USED : Next.js 15 · React · TypeScript · Tailwind CSS · JWT Authentication · REST APIs · CI/CD
Jan 2025 – Present

- Built a full-stack AI Toolbox using Next.js 15, React, TypeScript, and Tailwind CSS with a modern, responsive UI.
- Developed 100+ AI tools and utilities including PDF, image, text, developer, calculator, and converter tools.
- Implemented a secure admin dashboard with JWT authentication for managing tools, blogs, categories, and users
- Optimized the platform for SEO, performance, and Core Web Vitals using server components, dynamic metadata, image optimization, and caching

CERTIFICATIONS

- Google Data Analytics — Google (Jun 2025)
- Web Development Fundamentals — IBM (Mar 2025)
- Data Science and Analytics — HP LIFE (Feb 2025)
- Introduction to Artificial Intelligence — Google (Aug 2023)
- Object-Oriented Programming using Python — Infosys Springboard
- Introduction to MongoDB — MongoDB (Jun 2024) React for Beginners + Introduction to SQL — Skill Up

EXTRA-CURRICULAR ACTIVITES

- Won 2 prize in Western Music
- Competitions as a Tenor & Bass vocalist with the Shamrocks music ensemble. Selected player for the College Carrom Team, showcasing focus, discipline, and teamwork

ACHIVEMENTS

- Presented a technical paper on Artificial Intelligence Development, demonstrating research, analytical, and presentation skills.
- Participated in a Debugging Competition conducted by Madras Christian
- College proficiency showcasing problem solving ability and programming

WORKSHOPS

- Participated in workshops on Artificial Intelligence, Machine Learning, Cybersecurity, and Full-Stack Web Development.
- Attended technical webinars on emerging technologies and DevOps practices.

DECLARATION

I hereby declare that all the details furnished above are true, complete, and correct to the best of my knowledge

VIRTUOSO AI Feb 2025 – Present

[\[LINK\]](#) [\[GITHUB\]](#)

TOOLS USED : Next.js · React · TypeScript · FastAPI · Python · PostgreSQL · Machine Learning · REST APIs

- Built an AI-powered music learning platform using Next.js, React, TypeScript, Tailwind CSS, FastAPI, Python, and PostgreSQL.
- Developed features for learning multiple instruments with personalized lessons, practice exercises, progress tracking, and interactive music theory.
- Integrated AI to analyze users' playing through the microphone, provide real-time feedback on pitch and rhythm, and recommend personalized practice sessions.
- Created a responsive, user-friendly interface with secure authentication, dashboard, cloud storage integration, and AI-powered learning assistance.

AUTOMATIC SEATING ALOCATIONNov 2025 – May 2026

[\[LINK\]](#) [\[GITHUB\]](#)

TOOLS USED : Excel Automation·ETL·Data Management · Data Visualization · Report Generation

- Engineered an automated seating allocation system assigning 300+ students to examination halls based on capacity, eliminating manual scheduling and reducing allocation time by 70%.
- Built an editable timetable module enabling real-time schedule updates, reducing revision turnaround from hours to minutes.
- Automated multi-format report generation (Excel, PDF, image export), enabling seating plans to be distributed with a single click, eliminating manual formatting effort.
- Delivered a scalable Excel-based solution that improved allocation accuracy by 95% and was adopted as the primary tool for examination management.
